

# ECHO<sub>2</sub> Plus™ Oxygen Treatment System

## STARTER PACK CONTENTS

(866) 410-5549 or 480-664-9490

### The ECHO<sub>2</sub> Plus™ Starter Pack Contains:

---

- Treatment Packs - Our unique all-in-one Treatment Pack contains six 5 ml ampoules - all the solutions you will need to perform one complete ECHO<sub>2</sub> Plus™ or Oxyceuticals™ treatment.
- Vitamins & Minerals - Includes a set of our specially formulated Mycelated Vitamins and Mineral formulas. Includes Retinol Palmitate (Vitamin A), D-Alpha Tocopherol (Vitamin E) and Vitamin C, Liquid Minerals and Sidmonsia Cheninsis.
- Gauze Pads and Exfoliant Pads - Each Starter Pack includes 4X4 sterile gauze pads and 2X2 exfoliant pads.
- Sub-Micronic Delivery System - Includes two (2) complete Sub-Micronic Delivery Systems (SMDS) consisting of our Flow Chamber Nebulizer, Large Particle Adaptor and Micron Tip plus seven (7) foot oxygen delivery tubing.
- Consumer Brochures - For client information, we include 50 ECHO<sub>2</sub> Plus™ Oxygen Treatment consumer brochures in a convenient Q & A format.
- Training Materials - Includes a comprehensive, step-by-step training video, 85-page training manual and final examination. Following completion of the final exam, each technician will receive a Certificate of Completion identifying him/her as an authorized user of the ECHO<sub>2</sub> Plus™ Oxygen Treatment System.
- Oxygen Concentrator - Our premier Starter Pack includes the ECHO<sub>2</sub> Plus™ Oxygen Concentrator. The Concentrator is your source of pure oxygen for the ECHO<sub>2</sub> Plus™ oxygen treatments.
- Marketing Manual - Proven marketing strategies to assure a successful launch of the ECHO<sub>2</sub> Plus™ system. Includes advertising copy and photos.

### General Information

ECHO<sub>2</sub> Plus™ is an oxygen facial treatment that targets the cellular or Dermal layers of the skin with pure oxygen, along with 87 different vitamins, minerals and enzymes. The ECHO<sub>2</sub> Plus™ Oxygen Treatment System is not a facial but rather a multi-step process that includes Exfoliation, Cleansing, Hydration and finally, the application of pure oxygen with a topical dose of Mycelated vitamins A, C and E.

## **Pure Oxygen**

Unlike other so-called oxygen treatments on the market today, the ECHO<sub>2</sub> Plus™ Oxygen Treatment System does not use hydrogen peroxide or any other chemically-derived and often harsh form of oxygen generation. Instead, only pure oxygen is used. That means that you will not be putting anything on the clients skin that is not pure, natural and necessary for healthy skin tissue.

## **Oxygen Delivery System**

The ECHO<sub>2</sub> Plus™ Oxygen Treatment System was developed by a respiratory therapist using the principles of oxygen delivery developed for treatment of severe skin burns. Hyperbaric Oxygen Therapy (HBOT) uses pressure to push oxygen into the damaged skin, thereby saving marginal tissue and promoting the generation of new tissue.

The ECHO<sub>2</sub> Plus™ Oxygen Treatment System is the only treatment that uses a patented Submicronic Delivery System to "push" the oxygen (along with the vitamins, minerals and enzymes) into the dermal layer of the skin. So instead of merely spraying oxygen onto the surface of the skin, the ECHO<sub>2</sub> Plus™ penetrates the natural barrier of the skin to the epidermal junction area where new cells are formed.

There the oxygen molecules attach themselves to the collagen and elastin fibers, strengthening them and promoting the generation of new skin cells. In addition, as the oxygen is pushed into the cells, toxins are pushed out. This, in combination with the free-radical scavenging effect of vitamins A, C and E in the treatment provide dramatic results for virtually every skin type and condition.
